“ I've used Snap to advertise
several carer roles and they
have always proved to be
so easy to deal with! All their staff are
approachable, efficient, proactive, very
helpful and prompt in their responses.

*This makes my life so much easier; they
take on all the hard work and simply send
me candidates that meet my criteria.*

*It is particularly beneficial when I am
working on a number of locations and
clients at any one time. If you're seeking to
recruit carers in any location,
I certainly recommend using
their advertising service.* **”**
